RATES OF POSTAGE.

A single letter from any Post-office in Scotland, Eng-
land, or Wales, to any place not exceeding 15 miles from
such office, Os. 4d.
For any dist. above 15, and not exceed. 20 miles, 0 5
20 30 40 — 0 7

50	80	0 8
80	120	0 9
120	170	0 10
170	230	0 11
230	300	1 0

And so on in proportion, the postage increasing progressively one penny for a single letter for every like excess of distance of 100 miles.

GENERAL POST.—Letters containing one Enclosure are chargeable with two Single Rates. Letters containing more than one Enclosure, and not weighing one Ounce, are chargeable with three single Rates. Letters weighing one Ounce, whatever the contents may be, are chargeable with four Single Rates; and for every quarter of an Ounce above that weight, an additional Single Rate is chargeable.

Ireland, by way of Holyhead, 3d., Donaghadee, 4d., packet-rate, over and above all other rates.

Vessels to and from Ireland, or Coastwise, are not allowed to convey letters, under a heavy penalty.

Guernsey and Jersey, 3d., packet-rate, over and above all other rates.

By an act of 53d Geo. III. all letters and packets which shall be conveyed, during any part of their progress through Scotland, by a mail-coach, are liable to an additional rate of one halfpenny to the ordinary rate of postage; but not to be doubled or trebled on double or treble letters.

* By an act of Parliament recently passed, merchants' Accounts, Bills of Exchange, Invoices, Bills of Lading, and Proceedings at Law, written on the same piece of paper with a letter, are no longer liable to separate rates of postage, but are to be charged as single only. A single piece of paper is only chargeable with single Postage, whatever may be written upon it.

PENNY-POST.—Letters for the Penny and Twopenny-Post delivery must be under four ounces in weight.

SHIP LETTERS.—By the Ship Letter Act it is enacted, that every master of a vessel, immediately on his arrival in port, shall take the whole of his letters to the Post-Office, under penalty of L.200, and the captain must sign a declaration that every letter has been so delivered, before his vessel can be permitted to report to the Custom-house.

Letters coming from on board any ship are chargeable with an additional rate, for a single letter, of 8d.

Letters conveyed outwards, in sealed bags, are chargeable with half packet postage, which must be paid when put into the office.

The returns of the packets are calculated thus:—to Jamaica and back, 16 weeks; America, 15 weeks; Leeward Islands, 13 weeks; Malta, 14 weeks; Brazil, 20 weeks; Lisbon, four weeks.

From July to December inclusive, the packet touches at Pernambuco and Bahia, on her outward passage to Rio Janeiro; the other six months on her homeward passage.

In November, December, January, and February, the packets touching at Bermuda, go to New York direct; the other eight months they go and return by Halifax.

Letters for places abroad, to which there are no packets—as China, New South Wales, Sierra Leone, Cape Coast Castle, Goree, Senegal, St Helena, and many parts of South America—are forwarded in sealed Ship Letter Bags, by vessels sailing from London or the Out Ports. Postage from Edinburgh, 1s. 11d.

EAST INDIES.—Letters to and from, are regularly forwarded by ships.—The postage must be paid here.

The rate outwards is 2d. per package under three ounces; if above that weight, one shilling per ounce.

The rate inwards is 4d. per package under three ounces; if above that weight, one shilling per ounce.

SOLDIERS AND SEAMEN can send and receive Single Letters on their own private concerns only, for One Penny, (within any part to and from which there are regular Mails,) to be paid when put into the Post Office. The name of the Soldier or Sailor, his Class or Description, and the name of the Ship or Regiment, must be given by himself, and the Officer having the command must sign his name, and the name of the Ship or Regiment to which he belongs.

Their Letters are also forwarded to the East Indies and New South Wales, on payment of One Penny at the time of putting in; and Letters from the East Indies are chargeable with One Penny, or Three Pence, according to circumstances; to Places Abroad, where there are no regular Packets, on payment of Three Pence.

NEWSPAPERS, and other printed publications liable to the Stamp Duties, may be sent to any of his Majesty's Colonies or Possessions beyond seas by the packet boats, upon the payment of one penny halfpenny for every such paper, such payment to be made at the time the paper is put into the Post office, provided the same be sent in covers open at the sides, and be put into the Post-Office in any town of Great Britain or Ireland, on any day within seven days of the day on which the same shall be published, such day to be ascertained by the date of the paper.

Newspapers for the East Indies are charged as follows:—under one ounce 1d., under two ounces, 2d., under three, 3d. and so on.

NEWSPAPERS printed in the British Colonies and brought to Great Britain and Ireland by packets, or by private ships, in covers open at the sides, will be charged with a postage of three pence upon each paper.

If any papers intended to be sent from Great Britain and Ireland, which are liable to the stamp duties, are not duly stamped, such papers are to be stopped, and transmitted to the Commissioners of Stamps.

And if any other paper or thing whatsoever be enclosed or concealed in such printed papers, or there shall be any writing other than the superscription upon such papers or their covers, they will be charged with treble the postage of a letter.

FRANKS.—The Peers of Parliament and Members of the House of Commons are entitled to send "ten and receive fifteen letters daily," free of postage, to or from any place within the United Kingdom of Great Britain and Ireland. The superscription of each letter sent must be wholly in the handwriting of the Peer or Member, who must endorse the name of the post town from which such letters are sent, and the date written in words at length. The weight of each letter must be under one ounce.

Franks put into the Twopenny-post in London are liable to the Twopenny-post rates, and are also liable to the rate when going into or coming from any of the country Penny Posts. The act of 54 Geo. III., cap. 169, sect. 17, enacts, that it shall be lawful for every Member of either House of Parliament to receive by post any

petition addressed to either House of Parliament, free from the duty of postage, so as the same be sent in a cover open at the sides, and that the same shall not exceed the weight of six ounces.

BANK NOTES AND DRAFTS.—Persons wishing to send bank notes or drafts by post, are advised to cut such notes or drafts in halves, and send them at two different times, waiting till the receipt of one half is acknowledged before the other is sent.

MONEY, RINGS, OR LOCKETS, &c.—When money, rings, or lockets, &c. are sent by the post from Edinburgh, particular care should be taken to deliver the same to the Clerk, at the window at the General Post-Office; and when any such letter is to be sent from the country, it should be delivered into the hands of the Postmaster; but it is to be observed, that this office does not engage to ensure the party from loss.

MONEY ORDER OFFICE.—For the security of sums of money not exceeding five guineas, sent in letters by post, the Postmaster-General has authorized the establishment of the Money Order-office, where orders are given (payable at sight) on the Postmasters in Scotland, England, and Ireland. Attendance is given from 9—30 m. to 9—15 a. daily, Sundays excepted.

LATE DELIVERY OF LETTERS.—See p. 16.

MAIL-COACH ROUTES FROM EDINBURGH,

SHEWING THE ARRIVAL AND RETURN OF THE MAIL AT EACH OF THE UNDERMENTIONED PLACES.

THE following Lists will, it is hoped, be found of much importance to the Public, as showing the course of Post, and enabling persons to avail themselves of Mail Conveyances. A very trifling calculation will also enable them to ascertain the time of the Mail passing any of the intermediate places. The Third Column shows the time of the Mail passing, and the last that of its return to Edinburgh.

GENERAL POST OFFICE.

LATE DELIVERY OF LETTERS.—Representations having been made of the time occupied by the LETTER CARRIERS in the DELIVERY of their LETTERS through the City, the inconvenience has been ascertained to be in a great measure, if not entirely, attributable to the delays experienced by the Carriers at hall doors, owing to servants not answering the bells, and in some cases, by the servants not being provided with money to pay the postage. Instructions have been issued to the Letter Carriers, to rap or ring at each hall door twice, pausing an instant. The application of the Carrier, therefore, cannot be mistaken; and the public are earnestly requested to aid the Postmaster-General in his Grace's anxiety to expedite the general delivery of the correspondence, by obliging servants to answer immediately the Carrier's application, and to have the servant previously provided with sufficient sums to discharge their demands.

REGULATIONS

FOR THE

HACKNEY-COACHES OF EDINBURGH.

It is enacted by the LORD PROVOST and MAGISTRATES of Edinburgh,—

1. That no Carriage shall ply for hire within the City and Suburbs, or Port of Leith, without being approved of and licensed by a Magistrate. Each License shall continue in force for two years only.
2. That each licensed Carriage shall have a number issued for it, which shall be affixed, together with the Owner's name, in legible letters, of a colour different from the Carriage, at least one inch in length, on each door, immediately below the window frame; and the number shall also be distinctly painted on the centre of the back of the Carriage, or on a piece of tin fixed under the back window.
3. That each licensed Carriage shall be always provided with horses in good condition; and the Carriage, including the cushions, steps, springs, blinds, windows, and check strings, as also the harness of the horses, shall always be kept in good order and repair. The Coachman, when driving, shall always keep the check-string in his left hand.
4. That each Coachman shall be cleanly in his person, and conduct himself in a proper, civil, and decorous manner on all occasions.
5. That the Stances shall be South College street, Tron Church, Princes street East and West ends, George street between Hanover and Frederick streets, Queen street East and West ends, and Union place, or at such other places as may from time to time be appointed. While the Carriages are at the Stances, the Coachmen shall either sit on the box, or stand at the horses' heads.
6. That there shall not be fewer than six Carriages at each Stance every week-day at 9 o'clock A. M. and on Sunday, one-fourth of the Carriages licensed shall attend at each Stance from 10 A. M. to 10 P. M. in rotation of numbers.
7. That, when a Carriage is at a Stance, it shall be held to be disengaged. The Coachman shall not enquire where he is to go previously, to being engaged—nor plead a pretended prior engagement—nor draw off the Stance on account thereof, the proof of a real engagement lying with the Coachman. He shall wait, either at taking up or setting down a Party, as long as he shall be required. When a Carriage is engaged, the hour shall be punctually kept, and the arrival immediately announced.
8. That Carriages shall be hired from the Stance nearest the residence of the Party.

9. That all parcels or other articles left in Carriages shall be immediately returned to the Owner if known, or if not known, shall be sent to the Council Chamber.

10. That the fares shall be charged in terms of the annexed Table.

11. That a copy of these Regulations shall be kept by each Coachman; and the Regulations shall be enforced in the Council Chamber, at the instance of the Procurator-Fiscal, by penalties not exceeding One Pound sterling for each offence, or by withdrawing the license. The Proprietor shall be answerable for his Servants.

ALTERNATIVE.

On Policies for the Whole of Life one-third of the Premium may be left unpaid, to be deducted from the sum Assured, on a scale equal to interest at 4 per cent.

Thus, at the age of 30, 20 guineas a-year will insure L.1500 in the first instance, to be reduced by L.10, 18s. 5d., if the assured die within the first year; by L.59, 2s. 11d., if he die within the fifth year; and so on according to a scale endorsed on the Policy.

ASCENDING SCALE OF PREMIUM.

40	1 18 3	2 7 0	4 9 8
50	2 11 11	4 0 11	7 0 3

Thus, a man at 30, instead of L.2, 2s. for every year of life, according to the Even Table, by adopting the Ascending Scale, will pay L.1, 8s. 7d. per annum, for the first seven years; L.1, 15s. 1d. per annum, for a further seven years; and L.3, 0s. 11d. for every year of life after.

FOREIGN RESIDENCE, &c.

LIFE DEPARTMENT.

While the Premiums are as moderate as is consistent with security, the Holders of Life Policies are entitled to periodical additions from the surplus Premiums, which may be applied either to increase the sum payable at the death of the Insured, or to reduce the future Payments of Premium. That this is a very substantial advantage will be perceived from the following

TABLE,

Showing the additions made to Life Policies for L.1000, effected in London, or through an Agent in Great Britain, which have been in force for the Fourteen Years ending at Christmas 1830. Proportionate additions have been made to Policies for other Amounts, or which have been in force for shorter periods.

Date of Policy.	Sum assured.	Annual Premium.	Age at Commencement.	Amount that has been added to the Sum assured, payable at the Party's death.
	<i>L.</i>	<i>L. s. d.</i>		<i>L.</i>

do.	1000	53 3 4	55	382
do.	1000	63 13 4	60	449

Thus, by the above table, it will be seen, that a person insuring L.1000 at 20 years of age, at the end of 14 years will have paid L.305, 1s. 8d. of Premium; and, were he then to die, his heirs would receive L.1230 instead of L.1000.

These additions will, on comparison, be found AS GREAT AS HAVE BEEN MADE BY ANY OTHER INSURANCE OFFICE WHATEVER.

As to the Rates charged by the Company, it may suffice here to say, that the Tables adopted by the Directors were originally framed upon the sound principles of mathematical computation; and the practice of the Equitable Society has put them to the unerring test of long and extensive experience.

FIRE DEPARTMENT.

The assurance of every species of property from loss or damage by fire is undertaken by the Company on highly favourable terms.

The following are the rates for all policies where the premium exceeds 5s.

Common Risks,	1s. 6d. per cent.
Hazardous ditto,	2s. 6d.
Doubly Hazardous,	4s. 6d.

The duty on Farming Stock Assurances being wholly taken off, all Farming Stock may be assured at the low price of 2s. for every L.100, without any restrictive clause whatsoever, the former charge having been 5s.

A payment for rent is made by the Company in case of *Loss on Buildings*, without any extra premium.

Proposals, fully explanatory of the principles and rates of the Company, may be had at the Company's office, No. 29, Heriot Row, Edinburgh, where all letters on the subject of Assurances may be addressed to the Committee, or to their chairman, Mr Campbell.

This Incorporation divides, Septennially, the whole Profits amongst the Insured, who are guaranteed from responsibility. A return of nine per cent was made on the Premiums received from Candlemas 1825 to Candlemas 1832; and this, notwithstanding a more than average amount of Losses during that period.

The business of the Society has been gradually and steadily increasing since the adoption of the present system of dividing the Profits; and as the Losses during the current Seven Years will not, in all probability, be above an average, the Assured have reason to anticipate a still more favourable result at the next investigation.

All Town Risks of the First Class, Dwelling-Houses situated in the country, and Farm Steadings, are taken as common insurances, at 1s. 6d. per cent. At the same rate of Premium, the Stock and Crop on any part of a Farm may be insured in one sum, *without the average clause*; and if preferred, the sum insured may be allowed to decrease monthly or quarterly, whereby a considerable saving is effected by the Insured.

LIFE DEPARTMENT.

The Caledonian Insurance Company offers to the public the security of an AMPLE SUBSCRIBED CAPITAL, as a GUARANTEE FUND, together with all the advantages resulting from a participation of profits on THE MUTUAL ASSURANCE PLAN, without the risk which attends every such scheme in the outset.

For the convenience of those who prefer a *certain* future benefit, at a low rate of premium, the Company grants policies, *without* participation in the profits, at *diminished* rates.

Insurances may be effected either for the whole period of life, or for one year, or for seven years; and the premium may be made payable either *annually*, or *half-yearly*, or *quarterly*, which must prove a great accommodation to many.

. No Charge is made for Entrance Money.

FIRE DEPARTMENT.

The Company insures houses, manufactories, rents, furniture, goods, and merchandise, farming stock, shipping in port or dock, and while building, or used in canals, and all other property, from loss and damage by fire, on the usual terms. A duty is payable to government of 3s. per cent on all property insured against fire, with the exception of agricultural stock, which is now exempt from duty.

THIS Society has for its basis, ECONOMY COMBINED WITH SECURITY—the terms of Assurances for Young and Middle-Aged Lives being much lower than those of any other Office which gives a bonus to the Assured; and a full statement of its affairs is annually made to the Share-holders and Policy-holders, who have a control over the Society.

Three-fourths of the profits are now divided among those Assured on an equable scale, for the whole term of life, after the Policies shall have been in force four years; and eventually the whole of the profits will be so divided.

A bonus was declared up to the end of 1833, which gave to Policy-holders, on an average, SIXTEEN POUNDS PER CENT upon the amount of premiums paid. Persons assuring during the year 1834 will be entitled to share in the profits to be divided up to the end of 1838.

Endowments for children are granted, and Assurances on Joint Lives, Survivorships, Survivorship Annuities, as well as every species of Life contingency, at rates proportional to the nature of the risks, which are as low as possible compatible with security to the Assured.

Assurances are also effected, either by paying small premiums at first, and increasing them every five years, or by paying a high premium at first, subject to periodical abatements, and, ultimately, the payments to cease altogether. In fine, persons may be Assured in any way which may be best adapted to their circumstances or wishes.

Medical Referees are appointed in most cities and large towns, and information may be obtained and Prospectuses and Tables had from the Agent,

The Edinburgh Life Assurance Company was originally formed exclusively on what is known as the *Participation Principle*, according to which, all persons assuring for the term of life, whose Policies shall have existed for five years, are entitled to participate in the profits of the Company;—but as, in many cases, the object of the Party assuring is to secure a *fixed* sum, by payment of a low Premium, without regard to additions, the original plan of the Company has been extended, by adopting also a Table of Rates *without participation*.

The large subscribed Capital, and the numerous and responsible body of Proprietors, afford unquestionable security to Assurers, who are thereby, as well as under the terms of the Policies, effectually protected from all liability,—while, from two-thirds of the Profits being allotted to those assured on the Participation scheme, they enjoy all the advantages of the Mutual Assurance System.

The Company effect Assurances for periods short of the whole of Life,—and also on *joint lives*,—and on the *survivorship of two or more lives*. The Premiums in all of these cases, as well as on Single Lives, may be paid in one sum at the outset, or periodically for a limited number of years only, in place of annually during the whole continuance of the Assurance. The rates corresponding with those different modes, in so far as not given in the Tables, may be learned on application at the Office.

The Directors purchase, at a fair price, Policies for the whole Term of Life, which shall have subsisted for three years, if the Holders should wish to discontinue the Assurance. Policies may be sold or transferred.

Attendance is given daily at the Office, where every information may be obtained.—The *strictest secrecy* is observed in regard to all business transacted with the Company.

Persons insuring at this Office will derive two important advantages.—First, The most effectual security is provided for payment of losses. Not only will the premium received upon policies be carefully invested, and accumulated for that purpose, but a capital of Seven Hundred and Fifty Thousand Pounds has been subscribed, to answer any possible deficiency.

Secondly, Upon every policy effected for the whole term of life, the insurer will participate in the profits of the Company, by having periodical additions made to the sums insured to the amount of two-third parts of such clear gains and profits.

At the same time, they will be protected by the ample capital above-mentioned, from every chance of loss. Lives insured with the IMPERIAL are allowed to pass by sea from one part of the United Kingdom to another; and also, in time of peace, to pass in King's ships and packets, or other decked vessels, between British ports and such foreign ports as lie between Ostend and Hayre-de-Grace, both included, without extra premium, and without being subjected to the inconvenience of applying for the special leave of the Directors, as heretofore required by the usual condition of life policies.

Assurances are effected by this Society to the extent of L.5000, upon the same sole or joint or surviving life or lives, and are not confined to the profession of the Law, but are open to persons in every station of life.

At Christmas, 1833, being ten years from the Institution of the Society, and at the end of every seven years from that period, FOUR-FIFTHS of the Profits will be apportioned amongst such of the Assured, for the whole term of life, as shall have been so assured for the space of three years or upwards previously to those periods respectively, and for the amounts which shall be so apportioned, equivalent reversionary sums will be added to their Policies.

If any person should wish to discontinue the payment of his annual Premium, the Directors have power either to purchase his Policy for a sum of money payable immediately, or, in consideration of its surrender, to grant a new Policy, without any further annual Premium, for a sum to be agreed upon, payable at the decease of the life assured. And the person to whom such new Policy is granted will be entitled, in respect thereof, to participate in the periodical divisions of the profits.

Persons who shall have been insured for the space of two years, in L.1000 or upwards, for the whole continuance of life, have the power of electing, either from among the Proprietors or from among themselves, two of the four Auditors of the Society.

Parties may arrange to pay their premiums either in a single payment, by annual payments during the whole continuance of the Assurance, or by annual payments during a limited number of years only.

No entrance money is required; nor any extra Premium on persons in the Army or Navy, unless in actual service.

Assurances may be effected upon the lives of persons residing at a distance from London, by their appearing before a Solicitor in the country; and the payment of a fine for non-appearance at this Office is then dispensed with.

The Assured are allowed to pass by sea from one part of the United Kingdom to another, and to and from the islands of Guernsey, Jersey, Alderney, Sark, and Man; and also, in time of peace, in king's ships, and packet or passage vessels, to and from British and Foreign ports in the English Channel, between the Texel and Brest, both inclusive, without any special leave or license from the Directors.

The sums due on the Policies will be paid within three months after proof of the requisite facts.

Assurances may be effected through any respectable Attorney or Solicitor in England, of whom prospectuses may be had. A party may himself effect an Assurance by writing to the Actuary, or attending personally at the Society's Office, in LINCOLN'S INN FIELDS.

The Assured are requested to take notice, that no renewal Premiums are ever received from themselves or their Agents, without printed receipts, signed by two Directors and the Actuary, being issued from this Office.

Attendance is given daily, from Nine o'clock in the morning till Four in the afternoon, at the Office, where the Terms of Assurance may be had, Proposals for effecting Assurances received, and every information respecting the Society obtained.

THE SCOTTISH EQUITABLE LIFE ASSURANCE SOCIETY is formed upon principles calculated to afford the greatest possible benefits to the assured. It is a Mutual Assurance Society, in which the whole profits belong to, and are periodically divisible amongst the Assured. In this respect it differs essentially from a Proprietary Company. In the latter, the profits are in some cases wholly, and in all others partly, divided amongst the Proprietors, who, as Partners, have nothing in common with those who effect Assurance with the Company. When the Lives are carefully selected, and the revenues prudently invested, experience has demonstrated that those profits are greatly beyond what is understood by such as are not intimately conversant with the subject. The numerous Proprietary Life Companies which have arisen,—the exertions made by them to procure business,—the dividends they have been enabled to pay to the Proprietors,—and the value of their Stock, demonstrate the extent of their profits. Any healthy person, therefore, who finds it expedient to have his Life Assured, and who resorts to a Proprietary Company, just gives away his Share of Profits, and he does so without any corresponding advantage whatever. For though Proprietary Companies hold it out as an inducement to join them, that they secure to the Assured the sum specified in the Policy, whether Profit be made or not, this is merely a nominal, but is no real, security, the fact being, that in every established Life Office, large profits have arisen. Such has been the result, partly because human life is ascertained to be of much greater duration than is assumed in those calculations, on which all well-conducted Life Institutions have cautiously and very properly proceeded, and partly because money can, by transactions in redeemable annuity, and otherwise, be improved to greater advantage than the rate of interest assumed in such calculations. No Proprietary Company, therefore, can possibly afford so great advantages as Mutual Assurance Societies do; for such Societies, by dividing the whole profits amongst the Policy Holders, assure the greatest possible sum at the lowest possible rate. In other words, they assure at prime cost. Accordingly, if it were said of any Mutual Assurance Society, that its rates are too high, it is an obvious answer, that granting they are so, it does not form a good reason for joining a Proprietary Company in preference to a Society, because all monies beyond what are absolutely indispensable for securing payment of the sums assured, are returned or compensated to the Contributors, either by corresponding additions to the sums specified in the Policies, or by making a corresponding diminution of the future Annual Contributions or Premiums. The great practical effect, in short, of the Premiums being somewhat beyond the risk, is to create an additional guarantee for the stability of the Institution.

The London Equitable, on the exact model of which the Scottish Equitable is formed, is well known throughout the Empire, and the Profits which that admirable Institution has divided, are familiar to every one at all acquainted with Life Assurance. In some cases, the bonuses or divisions of Profit have extended to more than four times the sum assured, an immense advantage, the whole or the greater portion of which has been lost by those who have resorted to Proprietary Companies.

The Premiums or Contributions required by the Scottish Equitable are somewhat lower than those of the London Equitable. It is not, however, on the lowness of the Premiums required, that the Scottish Equitable Life Assurance Society puts forth and rests its claim to support. As has already been said, it is of small, or rather it is of no importance to the Members of a Mutual Assurance Society that the Premiums or Contributions are somewhat more than adequate to the payment of the sum assured, seeing that to the Members alone, all the surplus is appropriated. The claim of the Society to a decided preference, therefore, is founded on the irrefragable fact, that from the very nature of the Institution, as it stands, no Company, or other Institution on a different principle, can warrantably offer to the Assured so great advantages as it does.

The utmost care is taken in the Selection of Lives,—the Establishment is economically conducted,—the funds are profitably invested,—and a large surplus has already been realized, which, and the profits to be made in future years, will be divided periodically amongst the Policy Holders, reserving a portion thereof to meet contingencies, in terms of the Society's Deed of Constitution.

Every facility and accommodation, which any other Life Institution can safely afford, will be given by this Society.

FOR FIRE, LIVES, AND ANNUITIES.

LIFE DEPARTMENT.

THIS Company effect Life Insurances on equitable principles, with entire exemption from the liability of partnership.

A Large Capital, subscribed by the Proprietors, forms the security of the assured.

The Premiums may be all paid at once, or in any given number of years, *in the option of the party making the Insurance*; a plan, the advantages of which are strikingly obvious, as it affords an opportunity of securing a certain provision, independent of all after risks from failure in paying the Premium, or of paying a larger Premium, while the means of doing so may be more at command.

Each Policy for Life is entitled to share the Surplus profits, which are declared every seven years.

All transactions in the Life Department are considered strictly confidential.

Prompt Payment of Claims is made Three Months after proof of Death.

The following rates of Insurance for single Lives are given as specimens from the Tables. The rates for *One* and *Seven* years will, it is believed, be found, *on comparison*, very advantageous to the Public, while Insurances for the whole period of Life are equally so, if the benefit to be ultimately derived from a participation of the profits is taken into account.

Age.	Premium per cent for an Assurance for One Year.	Premium per cent for an Assurance for Seven Years.	Premium per cent for an Assurance for Life.

FIRE DEPARTMENT.

Insurances of every description of Property effected at the usual rates, corresponding to the risk. The practice of this Company has been, for upwards of a century, to return the profits on Policies effected for Seven years. Only *Six* years' premium and duty are charged, and the Government duty may be paid annually or in one payment.

The Stability and Character of the LONDON UNION SOCIETY have been satisfactorily proved *by the test of upwards of a century*, during which long period claims have been invariably discharged with promptness and liberality.

IN THE FIRE DEPARTMENT.

Property of every description may be insured, and the Premiums on all risks are equally moderate as those of the principal Offices in the United Kingdom.

IN THE LIFE DEPARTMENT.

The Assured may either participate in the Profits guaranteed against risk by the Capital of the Company, or they may secure to their heirs a precise sum at a reduced rate of premium.

Policies, when transferred in security of Loans, are relieved from the Duelling clause.

Every facility is given to parties going abroad, and no charge for travelling in Europe.

No extra premium required from Naval or Military gentlemen, unless called into actual service.

No admission fees or entry money charged.

Tables of premiums, and every other requisite information, will be given at the head office, No. 1, Hanover Street, Edinburgh; No. 4, New Bank Buildings, London; or by any of the Company's Agents in the principal towns of Scotland, and Northern Counties of England.

The PALLADIUM SOCIETY, with the complete security arising from a subscribed capital of *Two Millions*, give to all who insure when under *fifty years* of age, 80 per cent of all the profits of the Society, which is certainly of more advantage to the Insured than incurring all the risks of the concern, and only receiving one-fifth more of the profits.

It will also be remarked, that, in consequence of that portion of all the profits being given only to those who insure when under fifty years of age, to them it amounts to more than if all the profits were divided amongst all the Insured.

This will be shewn by the following table, which exhibits the additions made to policies for £5000, which had been in force seven years prior to the 30th December, 1831, and which amounts to more than has been given by any other Society of the same standing.

The large accumulated Capital and Annual Revenue of this Institution, (which, as a Life Assurance Association, is the oldest and most extensive in point of business in Scotland,) enables the Directors to offer to the public the full advantages arising from the principle of its constitution, combined with the utmost measure of SECURITY.

The great value of the principle of mutual contributionship, or, as it is generally termed, MUTUAL ASSURANCE, on which this Society is founded, is now well known. By the operation of this principle, taken in connexion with the careful selection of lives, and an economical management of the Society's business, it is evident that the advantages of Life Assurance are secured to their utmost possible extent. Indeed, they only require to be known and understood to be fully appreciated; and so rapidly accordingly has been the growth of this Society, that, during the last fifteen years, the annual revenue has increased from L.2300 to EIGHTY THOUSAND POUNDS STERLING *per annum*, and the accumulated Fund from L.3000 to nearly FOUR HUNDRED THOUSAND POUNDS STERLING; and both are in a state of steady and rapid increase.

The President, Vice-Presidents, Trustees, and Directors, are all personally interested in the Society, and must, in terms of the articles of constitution, be members of more than three years' standing.

The last periodical investigation of the Society's affairs took place at 31st December, 1831, when large additions were declared to the Assurances entitled thereto. In order to show the value of the additions made out of the Surplus Fund, the following particulars are given of the claim arising under a Policy opened previous to 1820, if emerging in the current year by the death of the party assured:—

Sum originally Assured,	L.1000	0	0
Vested additions up to 31st December, 1831,	392	6	0
	L.1392	6	0
Contingent prospective additions applying to the annual premiums paid for 1832, 1833, and 1834,	62	13	0
Total sum payable,	L.1454	19	0

The ordinary Court of Directors meet weekly for the purpose of receiving and deciding on applications for Assurance, which are now granted to the extent of L.5000, on approved single or joint lives.

Tables of rates of Premium, and every necessary information, will be readily communicated on application at the Society's Office.

The Capital of the Company has been fixed under the sanction of an Act of Parliament, at Five Hundred Thousand Pounds Sterling, besides which the Premiums and accumulating interest form a progressively increasing fund, applicable to the purposes of the Institution.

While an undoubted guarantee is thus afforded for the Company's transactions, the Directors are resolved to give every safe encouragement to the extension of the system of Life Assurance, by studying to conduct the business of the Company on the most liberal principles, and by affording all the benefits and accommodations to parties assured with this Company which are granted by any other respectable establishment.

Any party assuring for the whole term of life, has it in his option to enter the class of assurers, entitled to participate in the profits of the Company. The first division of the profits will be declared in the year 1835, when, from the steady success with which the business of the Company has been carried on, there can be no doubt that large additions will be made to Policies of this Class.

In order to accommodate parties who may desire to secure only a certain fixed sum, payable upon their own decease, or upon the death of any other party in whose life they may have an interest, without having any view to periodical additions to their Policies, the Directors have caused a Table of Reduced Rates of Premiums to be constructed, applicable to this species of business, and parties have accordingly an opportunity of transacting on this basis with the Company, on very favourable terms.

No charge is made on parties assuring under the head of entry-money, admission fee, or otherwise.

Military men are not charged with extra Premium unless when called into actual service.

Onerous Assignees to Policies opened by parties on their own lives, when duly admitted by the Company as the holders, will be held to stand in an equally favourable situation as if they had been the parties originally assured.

In cases where money is advanced by the Company by way of Redeemable Annuity, or otherwise in connexion with a life or lives, parties will be entitled on redemption to a Policy of Assurance, to the extent of the whole sum advanced, upon the same beneficial footing as to the rate of Premium, as if they had acquired the same at the date when the transaction was originally entered into.

(Standard continued.)

Norwich Union Life and Fire Insurance Societies.

LIFE SOCIETY.

ESTABLISHED 1808.

IN considering the numerous Establishments, formed and forming, for carrying on the business of Life Insurance, the public attention is called to the following leading points relative to this Establishment:—

First,—That it ranks, in point of business, above every other Life Insurance Office, except the Equitable Society of Bridge Street, Blackfriars, London.

Second,—That from the great extent of its business, the advantage of an average decrement of life, so essential to the prosperity of a Life Insurance Office, is secured.

Third,—The security of an accumulated Fund of upwards of One Million, Four Hundred and Fifty Thousand Pounds, in addition to an annual Income of Two Hundred and Fifty Thousand Pounds per annum.*

Fourth,—The distribution of the *whole profits amongst the parties insured*, which, at June, 1816, was declared to be twenty per cent; at July, 1823, twenty-four per cent; and at July, 1830, twenty-five per cent, making in all sixty-nine per cent.

Fifth,—The reduction of its rates, which is equivalent to an annual bonus.

Sixth,—The insured are permitted to go in steam or other decked vessels, to and from any part of the United Kingdom; and in time of peace, to and from any part of the Continent, situate between the Elbe and Brest, without being required to pay any additional premium, or procure a license from the Directors.

Seventh,—The Policies of the Society may also be at any time sold or mortgaged; and no notice of such transactions is required to be given at the office,—such negotiations usually requiring the greatest delicacy and secrecy.

FIRE SOCIETY.

This Society was originally established in 1797.

It is a part of the constitution of the Society, that losses may be substantiated before local Committees, a system which greatly facilitates the prompt settlement of claims.

The capital of the Society is £550,000, and the parties insured are completely guaranteed from all responsibility.

The Fire Society is wholly distinct from the Life.

In proof of the public confidence in the principles and conduct of this establishment, it may be sufficient to state, that the duty for the year ending on the 25th March, 1833, amounted to £68,356, 18s. 2d.; and that the total business of the Society now exceeds FORTY-EIGHT MILLIONS.

David MacLagan, M.D. *Consulting Physician.*

Mr F. G. Smith, *Secretary*—Mr N. Grut, Jun. *Actuary.*

Messrs W. A. G. & R. Ellis & J. Knox, *Solicitors.*

THIS Incorporation is composed of a numerous, wealthy, and influential body of Proprietors; and affords unquestionable security to the public from the magnitude of its capital—a large proportion of which is invested in Government or real securities. By conducting its operations on an extensive scale, it is enabled to equalise those vicissitudes which may arise from the influence of local causes; and, from the success which has hitherto attended this National Establishment, it is now permanently placed on a secure basis. A small annual contribution will secure property, real or personal, from loss or damage by FIRE; and by the same means, all those calamitous consequences may be obviated which so frequently arise from the uncertainty of human LIFE, and the many accidents to which it is daily exposed.

FIRE DEPARTMENT.

Property, real and personal, of every description, may be insured on the most advantageous terms; common insurances of the first class at the reduced rates, and property involving more than ordinary hazard, at rates of premium commensurate with the value of the risks.

LIFE DEPARTMENT.

It has been the anxious wish of the Directors of this Incorporation to ascertain how far the results of experience might be rendered beneficial to the public, without giving any reason to suppose that they were actuated by a dangerous spirit of competition. The Tables of Rates, specimens of which are here exhibited, have been calculated expressly for this Institution, and are deduced, on scientific principles, from the Mean Standard Table of the Decrements of Human Life in Great Britain for 1824, as published by the late Dr Thomas Young, in the Philosophical Transactions of the Royal Society of London.

PARTICIPATION IN PROFITS.

TWO-THIRDS of the profits are allotted at regular periods to the insured, WITHOUT BEING SUBJECT TO ANY DEDUCTION FOR CHARGES OF MANAGEMENT. The first division will be made on 1st January, 1842. The remaining one-third will be reserved by the Incorporation as a compensation for undertaking the whole expense of management, and for the security afforded by their capital against all possible contingencies.

The profit will be divided on the most equitable principles, in the proportion that each surviving person has contributed to the profit Fund.

A reversionary sum, equivalent to the present bonus, will be added to the original sum insured; or a corresponding reduction will be made from the future annual premiums.

The general accounts of the incorporation are patent to the Insured, but the individual transactions themselves are held as strictly private and confidential.

The following is a specimen of the rates: ANNUAL PREMIUM FOR THE WHOLE LIFE, WITH PARTICIPATION IN PROFITS, without any liability for charges of Management, for insuring L.100.

Age 30 | L.2 9 11 || Age 40 | L.3 5 0 || Age 50 | L.4 7 9

(Scottish Union, continued.)

REDUCED RATES. NO PROFITS.

To facilitate Loan transactions, a reduced scale of rates has been adopted, which will be found particularly favorable to the Insured, especially for young and middle-aged persons.

Age 30	L. 2 6 1	Age 50	L. 4 1 7
40	3 0 2	60	6 7 10

Moderate rates are demanded for Insurance against the contingencies of foreign climates, military or naval service, and voyages to distant countries; also for healthy persons above the age of 60, and for persons of all ages, afflicted with gout, asthma, rupture, or other serious maladies.

Each policy issued by the Company makes it imperative on the Directors, in the event of doubts or difficulties arising, to submit all such disputes or questions to arbitration; while, for the convenience of persons resident in England or Ireland, it shall be competent for the Insured to sue the Corporation, if necessary, by service of the proper writ upon the Company's agent at the place where the Insurance was effected.

Prospectus, detailing more particularly the various advantages offered by this Incorporation to the public, with Tables of the Rates both for Life and Fire Insurance, may be obtained by applying at their Office, No. 47, George Street, Edinburgh, or at any of their authorized Agents throughout the Empire.

Edinburgh and Dalkeith
Railway.

TO CONSUMERS OF COAL.

THE Great Depot of the Edinburgh and Dalkeith Railway contains Sir John Hope's Coal, the Marquis of Lothian's Coal, the Edmonstone Coal, and the Ar-niston Coal, so that all the best kinds of Coal in the country, and every variety, are to be had there. About five acres of the Depot are occupied with the private Store-yards of the Great Coal Proprietors, and the vicinity of these Store-yards to the City is of immense importance to the inhabitants, because the consumer may obtain his Coal directly from the Coal Proprietor, whose interest it is that the Coal should be in a pure state. The Coal sent to the Railway Depot is carefully selected with the hand, and freed from the coarser parts and the dross; waggon loads are frequently returned from the Depot Stores to the Collieries, as unfit to be sold in that great market, where competition makes character and quality so essential. That refuse is bought at the Coal Hills at a low price by those dealers whose practices deter them from the Railway Depot; they mix it with some better Coal, and sell the whole as the best of its kind.

The Coal Agents or Merchants, who hold Offices from the Railway Company, are very correct in their dealings. They have, however, no Coal-yards attached to their Offices, so that they have not the power, though they had the desire, to mix and adulterate the Coal. They send it, as ordered, directly from the Stores of the Coal Proprietors; and the weight and quality, as compared with the account or invoice sent to the consumer, are checked by an officer appointed by the Railway Company; and the carters are watched through the narrow streets by one of the Company's constables.

Consumers of Coals should attend to the following directions; they have been published in all the papers, yet very many, especially housekeepers and servants, are paying no attention to them:—

1st, Never receive a cart of Coals without the certificate of the Railway Company's Weigher, his name is ROBERT GIBB, and if he should be changed, notice shall be given by advertisement.

2dly, Attend to the hour marked in the Certificate, and if more than an hour after that has elapsed before the Coals are delivered, reject them, for the carter may have been disposing of a part of his load.

3dly, Always keep or destroy the Weigher's certificate, for if it remain with the carter, he may use it on the same day a second time, to pass another cart of Coals of inferior weight or quality.

4thly, Any person receiving a Cart of Railway Coal may assure himself of its weight and quality, by calling at the Depot, and examining the entry in the Weigher's book, or by writing a note to the Manager of the Railway, mentioning the weight and kind of Coal he had ordered—also the name upon the cart, and the hour of departure contained in the weigher's certificate. The consumer has thus a complete check upon the coal merchant or agent whom he employs, and the coal merchant has an equal check upon the carter.

The respectable coal merchant has a great advantage by supplying his customers from the Stores of the Railway Depot, for he saves the expense of keeping a private Store-yard, and of storing, selecting, and loading; and he can always obtain testimony of the honesty of his dealings.

Those who are not acquainted with any Coal Merchant on whom they can depend, may address orders for Coal to the Railway Office, St Leonard's Depot, and these shall be given to respectable Agents for execution.

The Railway Coaches to Dalkeith and Fisherrow, depart from St Leonard's Depot, at eight, ten, twelve, two, four, six, and a quarter after eight o'clock.

D. RANKINE,

Manager for the Railway Company.
Railway Office, March, 1834.

AND

JOHNSTON GALLERY OF PICTURES,

CONSISTING OF

Above 600 PAINTINGS chiefly by the Old Masters.

In connection with the valuable collection of Pictures in the JOHNSTON GALLERY, STRAITON HOUSE, the CALEDONIAN MUSEUM OF PRACTICAL SCIENCE has been instituted, for exhibiting and giving publicity to the Works of ARTISTS, INVENTORS, MECHANICS, MANUFACTURERS, MERCHANTS, PATENTEES, &c. free from any charge, and re-deliverable on demand.

That every facility may be given for experiments with Models of Vessels, Inventions for Propelling, or whatever may require water for illustration, a Canal is prepared in the Museum nearly sixty feet long, and about four feet broad, with circular basons eight feet in diameter at each end connected with it; also a Railway for Models of Locomotive Carriages, Waggons, &c. propelled by steam or other power. In addition to the above,

A LIBRARY OF SCIENTIFIC WORKS

Is now forming. A Catalogue of the pictures, &c. is published, and every information connected with the Museum will be regularly added.

Admission to the Gallery and Museum One Shilling.

Subscribers at £1.1.1s. per annum to be Patrons, and entitled to notice of all experiments to be exhibited in the Museum, and the use of the Library.

Visitors will also be admitted at 10s 6d per annum, or for six months at 7s, and Ticket for a Party, not exceeding five, 3s.

Edinburgh, 1834.

JOHN RUTHVEN,
Mechanician, New Street, } *Manager.*

Well-executed Models purchased by applying to Mr RUTHVEN, Straiton House, or at the Patent Press & Engine Manufactory, 23 New Street.

To Inventors, Patentees, Mechanics, Manufacturers, &c.

THE important advantages derived from the Caledonian Museum of Practical Science, by giving publicity to the Works of Artists, in every profession, and bringing forward ingenuity and merit, must be obvious to all; and as a National Institution requires only to be known to be appreciated. On Scotland never before was such a boon bestowed, and it has already proved how much it was wanted. By the exhibition of Models, and other productions of Art in the Museum, and thus concentrating attraction, much more efficient information is conveyed to the Country, and the Inventor and Manufacturer more benefited than by any other means, although made at considerable expense.

The extensive circulation of the Catalogues and Advertisements, specifying the productions forwarded to the Museum, could not be effected by any individual exertions, and the result of this must be evident to the Inventor and Manufacturer of every class.

Among the models in the Museum, is a Steam-Ship, with Engine, Boiler, and fire, propelled with steam on the Canal, by G. FOSTER, Glasgow—a beautiful model of one of the Liverpool and Manchester Locomotive Engines, by STEPHENSON, Newcastle—A Barker's Mill, going by water—an Engine working by the pressure of water—a condensing Steam Engine, by NEILSON, Glasgow—Model of MORTON'S Patent Slip—a complete Kitchen Range for a water power, by RITCHIE, Ironmonger, &c. to their Majesties—Portable warm-air Stove, heated by gas, and adapted for cooking by gas, for sale, by ditto—a great variety of apparatus for illustrating Hydraulics, Hydrostatics, Pneumatics, &c.—Beautiful specimens of Stained Glass, by COOPER, Elm Row—Specimens of ditto, by CARSE, 5, St. David Street—Warwick and Florence Vases, from Garnkirk fire clay, by ISIPONE—Improved Stomach Pump, by RETTIE; Brassfounder, Glasgow—A variety of Berlin productions in Cast Iron, New Silver and Embroidery Materials, from A. MULLER & Co. Berlin Warehouse, 44 Prince's Street—Portable Printing Press operating, and Patent Copying Press, by RUTHVEN—A Portable Fire Engine, by ditto—A Patent Chirodrome, which runs at the rate of ten to twelve miles an hour on a common road, by ditto.

THE CALEDONIAN BAZAAR.

This Establishment is in the same Premises as the Gallery and Museum: It is conducted on the plan of the Soho Square Bazaar in London; the Room is 85 feet by 42, and there are nearly 400 feet of Counters, where various Articles of Fancy, Ornamental and Useful may be procured; on the walls are a splendid collection of Paintings for sale, and a powerful Organ is played in the Bazaar, with a valuable Musical Clock, the Bazaar is thus rendered

WILLIAM LAY'S

WILLIAM LAW'S COFFEE APPARATUS.

THE ENGRAVING on the foregoing page will serve as a sort of glance into W. LAW'S Coffee Roasting Shop. The apartment is 50 feet long, 16 feet broad, and 24 feet high. The Steam Boiler stands in the right corner, as in the plate, the Engine next, and the four Roasters connected with it extend the whole length of the place. Two of these Roasters contain 112lbs. each, and the other two 56lbs. each. The figure in the left corner of the plate, standing above, is an accurate drawing of one of these Roasters; partly to fill up the space, and, if possible, to convey some notion of the peculiar construction and motion of the machine. The figure in the other corner is put there for uniformity's sake, and represents the Coffee Mill used in W. LAW'S Shop.

It is unnecessary to enter into any lengthened detail of the rise and progress of such a Manufactory as this. Like most other things of the sort, it arose from the meekest trifle. A wish to have a Roasting Machine, with two motions in place of one, promised, in the first place, to be useful; and, in the second, to be curious, whether it were useful or not. Revolving this single idea for months,—as weak people will do with mechanical crotchets in their heads,—a method of producing these two simultaneous motions occurred one day, as if by accident. No sooner was the movement clear to the mind's eye, than a Wooden Model was set about; and as the movements were accomplished satisfactorily, the blacksmith was employed next to construct a coffee-pan on the new principle. As soon as this was tried, expectation was not only confirmed, but exalted. In the new way the work was much better done, and it was much easier doing the work. There was more temptation to push the trade, and the sale was increased rapidly. Pan after pan was ordered, improvement after improvement was effected: and, in the short space of two years, what with excellence of quality, lowness in price, and novelty in preparation, there was obtained a greater and more constant demand for coffee than had ever taken place in any one shop in the world before!!!

These facts and assertions will, of course, be called by some the mere vapours of a puff; but there are others who may be satisfied to see that W. LAW does not alone entertain a favourable opinion of his Coffee Roasters; and, for this purpose, he submits the two following papers, viz.

First,—A Descriptive Account of a Model submitted to the Society of Arts, by W. Law, December 1829; and, secondly, their Report upon that Model:—

THE INVENTOR of the accompanying Model has been, for many years, a Roaster of Coffee for his own trade, performing the operation with the ordinary cylinders hitherto and yet in general use in Britain and on the Continent. He was constantly dissatisfied, however, with the partial manner in which the cylinder performed its duty, making parts of its contents black, others brown, and others all the various shades of both. This result was easily accounted for, from the fact of a cylinder only revolving on one axis; and though it threw the coffee berries regularly from side to side, yet when the fire beneath it was irregular, the berries were necessarily irregularly roasted, unless some motion could be given to the cylinder to throw the berries as well from end to end

as from side to side. A cylinder not being easily capable of such a motion, W. Law tried if it was possible to keep a long fire beneath a cylinder, at such an equal temperature as to avoid completely all irregularity in roasting, but he found this barely possible. He then thought of Mahommed's method of moving mountains, and tried if it were possible to bring the coffee regularly to the fire, since it was not possible to keep the fire regularly beneath every part of the coffee, and the only figure which appeared to him capable of doing this was the Globe. The double rotatory motion, which it cost him some toil to produce, is new, so far as he is able to learn. He has examined most machines of the kind in Scotland, England, and France. The advantages of it may be easily shown in the roasting of coffee, malt, pease, or even in the drying of corn; in all which, regularity, or sameness of colour, and, consequently, perfection of flavour, is of the utmost importance.

The manner of heating it through a cast metal pot is not a matter of indifference. Cylinders for roasting the above-named substances are generally heated above a live-coal fire of coke or charcoal, having their contents exposed to sulphurous flames, &c. &c.; but the contents of the globe is completely excluded from the fumes of fuel of any kind, and there fuel, at half the expense, will roast coffee through the pot, to what would roast the same quantity in a cylinder working on an open chafuer. But the most decided advantage is, the regular manner in which the contents of the double rotatory globe is heated, no matter what side, end, bottom, or top, the heat comes from, the constant complex motion turns every part of the machine in regular rotation against it, and while the stuff inside keeps tumbling from east to west, and from south to north, at one and the same time, it is next to impossible to make one bean one colour, and another a different colour.

W. Law has four of these machines in constant operation, driven with a steam-engine. They contain from 56 to 112 pounds each. He has now used them a sufficient length of time to prove their utility—he need not say beyond dispute—for he can have no interest, and has no wish, to dispute the point. Their pretty general adoption confirms the correctness of his conclusions while the invention was but in theory; and in submitting this model to the Society of Arts, he seeks no encouragement further than that, if they see meet to consider it a useful,—a—any invention at all—they will merely acknowledge it to be such, thus recording his claim to a trifle, which he has taken no pains otherwise to protect.

WILLIAM LAW,

EDINBURGH, 10th December, 1829.

THE REPORT.—SOCIETY OF ARTS FOR SCOTLAND.

Report of the Committee appointed to examine Mr Law's Model of a New Coffee-roaster, 3d March, 1830.

The Committee have examined the Model of Mr Law's Coffee-roaster, the slightest inspection of which induces the conviction of its answering the anticipations of its Inventor. The method adopted to produce two simultaneous rotatory motions, the one at right angles to the other, is very ingenious; the merit of which is enhanced by its simplicity.

The Committee have also visited Mr Law's premises, where the Machinery for Roasting and Grinding of Coffee is kept in motion by a small and handsome Steam-Engine; and they are confirmed in their opinion of the perfect efficacy of the contrivance.

The ease with which the Roaster is raised from the furnace, and the way in which the state of the Coffee may be ascertained, while the motion of the globe is maintained in one direction, have given the Committee great satisfaction.
